

 20th Annual 

JQS Annual Quilt Seminar

Jan 16th - 20th, 2024

Judy Gauthier

____ Featured ____ Teacher

I have been sewing and designing for many years. I started as a 4-H member at the age of 9 and immediately started sewing and designing my own garments. A critical care nurse by trade, I am the owner of Bungalow Quilting and Yarn in Ripon, Wisconsin. I believe that increased health benefits are achieved by interacting with color and fiber. I have been a Wisconsinite my whole life and my inspiration is derived from my customers and my physical surroundings. I am the author of 5 books published by C&T Publishing. Those books are Quilts for Scrap Lovers, Rainbow Quilts for Scrap Lovers, Sew Cuddly, Tantalizing Table Toppers and Sensational Scrap Quilts. My favorite quilts are scrappy and spontaneous. I love the look of bright colors combined in interesting and unexpected ways. I have been a guest on Nancy Zieman's Sewing with Nancy in a 2 part series about my books and continue to teach classes across the country. I am on faculty for the International Quilt Festival in Houston. I have had a fabric line with Ink and Arrow Fabrics. I have appeared on local morning TV shows in Wisconsin. I have 4 grown children and a husband of 33 years.

Modern Improv Quilting

Instructor: Sarah Frye

Class Fee: \$45.00

Level: All Levels

Description: This is a great way to use lots of fat quarters and small yardage left from other projects to make a project that is fun and will help you look at color in a new way. You will work on freeing yourself to use color at random just because you like it that way. If you notice in the attached picture you will learn how to avoid having to match seams when you start putting your units together. The fun of this process is that you don't have to worry about making units by a pattern or to a certain size. You just sew and enjoy and then when you start to assemble the quilt you will learn how to make them fit together with no extra effort.

Supplies:

- Sewing machine and usual supplies
- Neutral thread
- Full bobbins
- Fabric scissors
- Rotary cutter with new blade
- Small cutting mat (12" – 18")
- Ruler 12 to 14 inches

Fabrics:

- The fabrics I used are batiks but you may use any fabrics. Prints, stripes and checks will all add texture and interest to an improv piece.
- Bring fabrics left from other projects, those fat quarters you haven't found a use for and small pieces (any shape) from where you cut too many for a project. This is a great way to use leftover fabric.
- You will want a total of about a dozen different fabrics (1/2 yard pieces, fat quarters, etc.) Make certain three or four of those are neutrals or colors that work with everything else. You might want to add an accent piece like a stripe or check or a bright color that you really like.
- My stack started with 9 colors I like and use a lot, then I added a couple of neutrals, some loose strips and odd small pieces from my scrap bag and the light green that turned out to be the piece that made some of my other colors pop.

Wednesday Workshop

8:30am - 4:30pm

If you would like additional cuff fabric(s) embroidered to take home to make more stockings, the Elf will make it happen. We would love for you to join us in making a personalized Christmas stocking and by the end of the class leave, knowing that yes, you had been very, very naughty, but it was well worth it!

Thursday Workshop

Featured
Teacher

Blended Hexagon

Instructor: Judy Gauthier

Class Fee: \$45.00

Level: All Levels

Description: In this class the student will

Select a color palette for their quilt

1. Learn how to use the basic cutting technique for this quilt
2. Learn how to create the hexagon unique to this cutting technique
3. Discuss and sample the various layouts for this cutting technique
4. Learn how to slash and modify the hexagon for secondary and tertiary designs.
5. Learn how using stripes creates a secondary design
6. Learn set in seams
7. Learn basic applique techniques for the center design

This class is process based. The learner will not have a completed quilt at the end of the course but will be very anxious to get home and use this technique.

Supplies:

- Purchase of the book is not required but encouraged.
 - Handouts will be provided.
1. Required 5 ½" clear acrylic template which can be purchased from me for \$20. If you have a 5 ½" template you may bring that. This is a 5 ½" template, not a 5 inch template. A 5" template will not work. Template must be see through.
 2. Non skid tape or dots for the back of the template
 3. Rotary cutter and mat
 4. Short rotary ruler such as a 12-15 inch long ruler
 5. Separate regular ruler with 1/16 inch markings. Do not bring a ruler with 1/8 inch markings. They must be 1/16 inch markings.
 6. Marking pen or pencil
 7. 3 ½" circle template cut from template plastic

Striped Variation:

1. 1 ½ yards of striped fabric. Fabric must not be diagonally striped. See examples below:

2. $\frac{1}{4}$ yard felted wool to match striped fabric OR $\frac{1}{4}$ yard solid fabric to match striped fabric with $\frac{1}{4}$ yard of lightweight interfacing.

Regular Blended Hexagon:

1. 6 Fat quarters of a variety of prints but of coordinating background colors. Example—you can bring a group of fat quarters that you have been dying to cut in to. They don't have to all be from the same line of fabric, but they have to coordinate nicely.

2. $\frac{1}{4}$ yard felted wool to match the fat quarters OR $\frac{1}{4}$ yard solid fabric to match fat quarters with $\frac{1}{4}$ yard of lightweight interfacing

Star Variation:

1. 6 fat quarters of a variety of prints but of the same or similar background colors.

Example: Multiple different prints of all pinks, or multiple different prints of all mint green, or multiple different prints of all browns.

2. For this being your first class doing this, the fat quarters should either be all darks, or all lights.

3. $\frac{3}{4}$ yard cut of fabric that is light if your fat quarters are dark, or dark if your fat quarters are light. See the photo above. This fabric will be used for the lattice and so it needs to contrast from your fat quarters.

4. $\frac{1}{4}$ yard of felted wool to match, or $\frac{1}{4}$ yard of solid fabric with $\frac{1}{4}$ yard of lightweight interfacing.

Applique Star Variation:

The supply list for this is the same as the list for the Regular Blended Hexagon.

Description: With the improvement in printing photo quality color on fabric, it is no wonder that the panel designs coming out are simply delicious and there are so many of them! What do we do with all these panels that capture our attention? Let's walk through the process of designing around panels. In the first half of the class Mary Beth will break down the steps into manageable portions, simplify the math, share resources galore, work with the leftovers, create beauty and hopefully jump start the creative designer in you into action. The second half you design your panel quilt! I'll be glad to help.

Supplies:

There will be handouts, so a pen to take notes for first half of the class.

For the second half of the class will be about creating your own design around a panel. Bring a ruler, pencil, your fabric panel, coordinating fabrics/fat quarters/scraps that will look good with your panel, and any printed material that has quilt ideas you like. Bring blocks designs you like, quilt design ideas you'd like to see applied to your quilt. If you have any of the 100/200 blocks books on stars, log cabins, pin wheels, applique etc... bring those. Electric Quilter software usage will not be a part of this class, but if you have the software it has hundreds of block designs in it that you may reference. The goal for the second half of the class is to have you well on your way to a visual design concept to begin working on your panel quilt after class or when you get home. Some may be able to get started in class.
